

Global Travel Update: June 6th Edition

Current requirements and restrictions on travel

This is just a selection of the latest information on new entry requirements and restrictions.

The list of international travel destinations that you can safely travel to is ever-changing, so all outbound passengers should check with the [U.S. Embassy](#) or [Canadian Government](#) and their preferred airline before finalizing travel plans. And while the Government of Canada has strongly advised against non-essential travel, we would be happy to help you craft trips departing later in the year and into 2022.

Be sure to read further for some inspirational Kensington Tours itineraries we can book now, risk-free.

This week's highlighted destinations:

The Middle East:

Jordan: Open to Americans and Canadians with restrictions. All travelers require a negative COVID-19 test taken within 72 hours prior to departure (previously, 120 hours). A second test upon arrival is required only for non-vaccinated travelers. From June 15, 2021, the current curfew (11pm to 6am daily) will no longer apply to vaccinated travelers.

The Caribbean:

St. Lucia: Open to Americans and Canadians with restrictions. Vaccinated travelers no longer have to quarantine and can move about the island freely, visit restaurants and partake in certified activities. Non-vaccinated travelers must provide a negative COVID-19 PCR test taken within 5 days prior to arrival.

Europe:

Greece: Open to Americans and Canadians with restrictions. Fully vaccinated travelers must provide proof of vaccination. Non-vaccinated travelers require a negative COVID-19 PCR test taken within 72 hours prior to travel; or a negative Antigen test taken within 24 hours prior to travel. All travelers must also complete an online 'Passenger Locator Form' within 24 hours prior to arrival.

Latin America:

Ecuador & Galapagos: Open to Americans and Canadians with restrictions. Fully vaccinated travelers no longer need to provide a negative COVID-19 PCR or Antigen test upon arrival. Non-vaccinated travelers must still provide a negative COVID-19 PCR test taken within 72 hours before arrival to Ecuador – however, those traveling to Galapagos must provide a negative COVID-19 PCR test taken within 96 hours before arrival.

Important Note for Returning U.S. and Canadian Passengers:

U.S.: All American passengers over the age of 2 years must provide one of the following before boarding their flight back into the U.S.

A negative COVID-19 test result (PCR or Antigen) taken within 3-days prior to boarding.

Documentation of having recovered from COVID-19 and approved to travel by a doctor.
