Effective for tours departing Sept. 1, 2021 through the end of the year, all adult guests traveling on the tour brands of The Travel Corporation, including Luxury Gold, Insight, Trafalgar, Costsaver, Brendan Vacations and Contiki—will be required to be fully vaccinated against COVID-19. Guests must be able to show documented proof of an approved COVID-19 vaccine (Pfizer, Moderna, Astra Zeneca Vaxzervria, or Johnson & Johnson), with the final dose administered at least 14 days prior to the start of their trip.

For Luxury Gold and Insight, guests will need to provide proof of an approved COVID-19 vaccination to their Wellbeing Director, Travel Director or Traveling Concierge before joining the tour and also upon arrival to their destination. Guests also will need to comply with specific PCR testing requirements imposed by airlines and/or governments, which may differ from country to country.

“The decision to require our guests to be fully vaccinated will allow for a more seamless travel experience, providing extra peace of mind and confidence when booking our tours,” said Guy Young, president of Insight Vacations and Luxury Gold. “As the pandemic continues to evolve, countries in Europe and elsewhere are now requiring proof of vaccination to enter indoor venues such as museums and restaurants, making it challenging to navigate destinations without being vaccinated.”

To show proof of vaccination for their trip, all guests will be asked to provide an authentic COVID-19 vaccination certificate—electronic or paper showing date and time of the vaccination(s)—with the final dose given at least 15 days before the start of the tour.

Insight Vacations and Luxury Gold’s new Well-Being Directors will be present on tours with 20 or more travelers. They are specially trained to provide additional support and assistance to guests for the latest hygiene and physical distancing protocols, and staying up to date with the latest regulations from the World Travel & Tourism Council (WTTC), World Health Organization (WHO) and local government authorities. Both tour operators have launched a webpage showing travel requirements by country, so guests can stay up to date with ever-changing travel and health guidelines.

An identical policy has been adopted by Trafalgar, Contiki, Brendan and Costsaver. “The wellbeing of our guests is our top priority,” said Melissa da Silva, U.S. president of Trafalgar, Contiki, Brendan Vacations and Costsaver. “With many of the countries we travel to now requiring proof of vaccination to enter museums, restaurants, and historical sites, our new requirement will ensure that our guests are not only protected, but also enjoy their vacation as seamlessly as possible.”

This policy will be in effect until at least Dec. 31, 2021. Guests will continue to be expected to comply with specific requirements imposed by airlines and/or governments.

Trafalgar, Costsaver, Brendan Vacations and Contiki have been endorsed by the WTTC’s Safe Travels Stamp, recognizing the implementation of strict travel wellbeing protocols and standards.
